

To the FCC:

As a mother with a one-year old boy I do all I can to make sure I do my part as a parent. KLOVE is one way I do so. I believe in that the strong family system is what brought our country strong foundations. Lately, it's hard to continue living in today's society and instill the positive values. I love our government! Most importantly, I believe the first amendment is yet another strong foundation that has made America the great democracy that it is. Where would we be without free speech? In a place that is hard to imagine.

I get in my vehicle daily and tune in to KLOVE. I love being able to allow my son to listen to things that will only make him a good citizen. There's all I need to make this world a little bit easier. : Prayer, Wonderful music, news, and more. Where would I be without Christian radio? I don't want to imagine.

Please allow us to enjoy one of the greatest privileges as Americans. : Freedom of Speech.

Thank you,  
Jessica Irizarry Clark  
Vice President
